Guyana 35' - Cargo

The latest Guyana, South America build incorporates both exterior and interior storage. Removable luggage shelves can be used for both passengers and fragile cargo that needs stored away separately inside the cabin space. Additional features include cameras for security purposes and night vision capabilities with all cameras integrated into an on dash monitor. A lockable pay box welded into the dash structure for on board money handling needs and lockable compartment for the video recording hard drive. Yellow safety lights laced on the top for better vessel visibility are just some of the latest features.

Bentz Boats has set the standard for quality and innovation for over 40 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open saltwater conditions. Each boat is designed with passenger comfort, stability and safety in mind.
