Oregon State Police 28' Twin Gasoline

The Oregon State Police newest Bentz Boat will patrol from Lewiston, Idaho to Hell's Canyon Dam on the Snake River.

The 28' twin is powered by Kodiak 6.0L Chevy engines, 360 hp gasoline engines and coupled to Hamilton 212 jet units. The hull design is specific to the large whitewater encountered in Hell's Canyon and built to withstand the years of extreme use that it will encounter. The boat will be utilized for wildlife transport, search and rescue and law enforcement activities.

The boat includes bench style seating, dual on board heaters, bow and swim deck ladders, rear rails with rod holders, VHF and headset radios with an electronics package, trim tabs, sand traps and an external muffler system. Multiple storage compartments integrated throughout.

Bentz Boats has set the standard for quality and innovation for over 35 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz pioneered features include the sled shaped bow, forward and center pilot station, short stroke mechanical stick steering and delta pad bottom. These features contribute to our boats superior handling, quick planing and shallow running capabilities.
