Plant Location – 155 Southport

Bentz Boats has set the standard for quality and innovation for over 45 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open salt-water conditions. Each boat is designed with passenger comfort, stability and safety in mind.

## Power Company Fast Boat

A Public Power Company Fast Crew Boat is a sophisticated build. Powered by Yanmar 6LY-CR, 440 hp and Hamilton 292 jet boats allows a loaded cruise of 39 knots at 90% of full power. A large aft deck and recessed bow provide excellent working platforms. Comfortable interior seating for crew transport. Combination lighting system of spot, flood and parking lights coupled to an electronics package provides for safe night time operation. The sophisticated electrical system provides for redundancies and isolation of components and critical systems. Onboard and off board battery charging systems ensure electrical needs are being met. Both 12V and 120V onboard outlets. Shore power provides for electric heaters and engine heat circulation pumps to operate during down times providing immediate heat to the crew space and engines during winter operations.

## SPECIFICATIONS

**Owner:** Public Power Company

**Designer:** Bryan Bentz
