Plant Location – 155 Southport

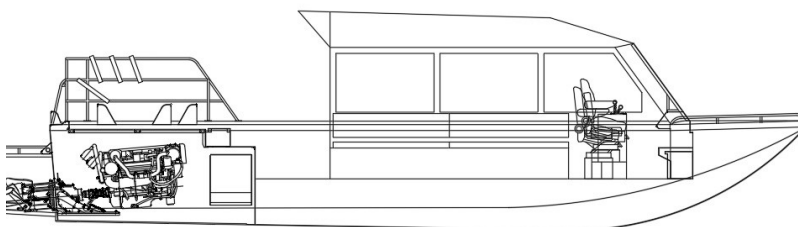

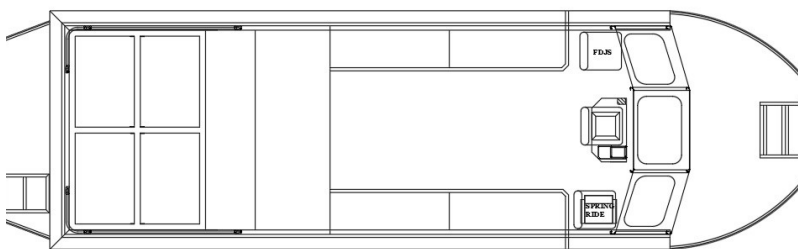

Bentz Boats has set the standard for quality and innovation for over 50 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open salt-water conditions. Each boat is designed with passenger comfort, stability and safety in mind.

United States Forest Service

The USFS 32' is a fleet replacement vessel from their previous Bentz Boat having reached it's 20 year replacement requirement. Operating in Hells Canyon of the Snake River has always been a demanding environment with the need to safely transport personnel, firefighters, supply USFS facilities, patrol, rescue and any specialty requirements needed. With twin Yanmar 6LP diesel engines and Hamilton 241 jet units they have the power and fuel efficiency for extended trips into the canyon for mission requirements including dory and raft retrievals.

SPECIFICATIONS
