## Whale Song Cruises - "GlacierRun"

The "GlacierRun" was specifically designed for tourism and sight seeing in SE Alaska. Daily cruises from Petersburg to the surrounding areas and attractions are easily handled with the 29' twin diesel powered by Yanmar 6LP, 315 hp and Hamilton 241 jets. The spacious passenger interior also includes a head and galley/serving area. The stepped top design provides easier transitions from the large viewing deck aft into the passenger space giving plenty of head to enter/exit the vessel. USCG stability tested to Exposed Waters standard provides safe travels while offering an exciting ride.

Bentz Boats has set the standard for quality and innovation for over 40 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open saltwater conditions. Each boat is designed with passenger comfort, stability and safety in mind.

## SPECIFICATIONS
